Hello Kitty Profile

Born- November 1st, 1974

Birthplace- London, England

Weight- The same as 3 apples

Current status- The hottest teen/young adult brand and continued favorite with juniors.

Hello Kitty was created on November 1st, 1974 by Ikuko Shimizu. The first product released with her image was a small clear vinyl coin purse that retailed for 240 yen in 1975. Originally Hello Kitty was nameless. Then, she was going to be called "White Kitty" after one of Alice's cats in Lewis Carroll's book *Through the Looking Glass*. This morphed into Kitty White, but due to a mistranslation she became better known as Hello Kitty.

When Hello Kitty was invented, British culture was the craze in Japan. As a result, Hello Kitty was made to live in suburban London with her twin sister Mimmy and parents George and Mary White. She also has a pet cat named Charmmy and a hamster named Sugar. Her hobbies include travelling, music, reading, making new friends and collecting lots of cute items. She especially loves her mama's apple pie. If you remember Smurfs who were 3 apples high, it may bring a smile to your face to know Hello Kitty weighs 3 apples. Hello Kitty is kept perpetually young although she has an on-off boyfriend Dear Daniel, a childhood friend, who had to move with his photographer father to Africa. However, after a stint in New York, Daniel returned to England and back to Hello Kitty.
